[REDACTED] Met with Mr. Ralph Preston, House Appropriations Committee staff, who told me that he plans, if possible, to get away with his family to Florida for a couple of weeks vacation when the Congress closes up for the elections. He hopes that on his return on the 1st of the month that he will have more time and that he will be able to schedule the long-planned meeting with Messrs. Duckett, DDS&T, and Proctor, DDI, for briefing on a sensitive Agency project. He also noted in part that he has not been able to give the intelligence community time that it deserves and plans to discuss with the Chairman designating another member of the staff to work with him on community matters. Such an arrangement would not come into being until after the beginning of the next Congress.

I briefed Mr. Preston on several items of current intelligence.
See Memorandum for the Record.
